

NEGOTIATING WITH SUPPLIERS™

SOLUTION OVERVIEW

Negotiating With Suppliers™ (NWS) is an engaging, high-energy two-day workshop which provides procurement professionals with new approaches to reduce costs, optimize supplier relationships, and improve teamwork within your organization. It will show participants how to reduce cycle times, manage inventory profitably, improve quality and boost supplier responsiveness. Participants develop new skills by working through a series of powerful negotiation simulations which build “gut-level” understanding of the key negotiation principles and behaviors used by top performers.

ABOUT THE WORKSHOP

- 2 days (16 hours total)
- Instructor-led
- Customized for each client
- 12-24 participants per workshop
- Delivered on-site and/or virtually

WORKSHOP OBJECTIVES

By the end of NWS, participants understand how to use:

- new approaches for uncovering critical information and the supplier's real needs;
- proven techniques for boosting your confidence as a negotiator, and improving your negotiation results;
- the ability to apply six fundamental Negotiation Principles that will help you plan, anticipate, and conduct negotiations with suppliers and internal stakeholders more effectively;
- new skills for more effectively asserting company needs and new approaches for utilizing creativity to achieve more profitable negotiation results;
- better strategies for managing the process of making concessions (and avoiding unnecessary “give-aways”) during the negotiation process;
- specific techniques for managing tension in tough interactions, and for using that tension to negotiate better agreements;
- a systematic process for planning, developing, and executing winning supplier negotiation strategies.
